PROFESSIONAL SUMMARY

Third-year IT undergraduate at SLIIT, graduating in 2027, seeking a Software Engineering or Full-Stack Development internship. Building retail, learning, and sports applications with Next.js, TypeScript, PostgreSQL, and MongoDB, with a focus on backend workflows, responsive interfaces, and authentication.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, PHP, Python

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend and APIs: Node.js, Express.js, RESTful APIs, NextAuth

Databases and ORM: PostgreSQL, MongoDB, MySQL, Prisma ORM

Tools and concepts: Git, GitHub, Postman, Vercel, Figma, npm, MVC, Agile, Progressive Web Apps (PWA)

PROJECTS

Upul Stores POS | Next.js, TypeScript, PostgreSQL, Prisma, NextAuth

- Built POS billing with coupons, payment records, and inventory updates using Prisma database transactions.
- Added role-based authentication, sales reports, and rule-based sales forecasts and reorder suggestions.

GitHub: github.com/Maliya2002/upul-stores-pos

SLIIT LMS | Next.js, TypeScript, PostgreSQL, Prisma, NextAuth

- Built role-specific learning dashboards with course management, assignments, quizzes, and attendance.
- Implemented assignment submission APIs with role checks, input validation, and deadline handling.

Live: sliit-lms.vercel.app | GitHub: github.com/Maliya2002/sliit-lms

GoldenStar Sports Club | Next.js, TypeScript, MongoDB, Mongoose

- Built player, match, tournament, and announcement management with role-based admin access.
- Implemented player-auction bidding with budget checks, bid validation, and audit records.

GitHub: github.com/Maliya2002/GoldenStar-Sports-Club

DevFlow AI | Next.js, NestJS, TypeScript, PostgreSQL, Prisma

In development - implementation available on feature branches

- Developing a team-platform foundation with organization persistence, registration, and session management.
- Added password-change and session-revocation logic; repository includes API tests and CI configuration.
